

## Requirements for bug report classification program

The program requires these dependencies to run:

```
numpy==1.26.4  
pandas==2.2.1  
tensorflow==2.15.0  
scikit-learn==1.4.1.post1  
imbalance-learn==0.12.0  
nltk==3.8.1  
requests==2.31.0
```

These have also been provided in a requirements.txt file within the repository. Please create a virtual environment and then run `pip install -r requirements.txt`
